

Download Are All Mixtures Solution Example

because a solution is when something is dissolved into something else and therefore they are mixed or a mixture, but all mixtures are not solutions because for example if i mix salt and sugar it's ...Not all mixtures are solutions. A solution is a specific term that describes an even or homogeneous mixture of a solute, the substance being mixed, in a solvent, the substance that is in a greater amount in which the solute dissolves. All solutions are mixtures because it is two or more substances mixed together. A mixture such as oil and water is not homogeneously dissolved and therefore not a solution., Are All Mixtures Solution Example.
