The history of literature is the historical development of writings in prose or poetry that attempt to provide entertainment, enlightenment, or instruction to the reader/listener/observer, as well as the development of the literary techniques used in the communication of these pieces. Literature (from the Latin Littera meaning 'letters' and referring to an acquaintance with the written word) is the written work of a specific culture, sub-culture, religion, philosophy or the study of such written work which may appear in poetry or in prose. Formal Latin literature began in 240 BC, when a Roman audience saw a Latin version of a Greek play. The adaptor was Livius Andronicus, a Greek who had been brought to Rome as a prisoner of war in 272 BC. Soon after the siblings' ascension to the throne, Ptolemy's advisers acted against Cleopatra, who was forced to flee Egypt for Syria in 49 B.C., History Of Roman Literature.
