I. ON KNOWLEDGE While my first three theses may perhaps, because of their abstract character, create the impression that they are somewhat removed from our topic - that is, the logic of the social sciences - the history of the social sciences has origin in the common stock of Western philosophy and shares various precursors, but began most intentionally in the early 19th century with the positivist philosophy of science. Since the mid-20th century, the term "social science" has come to refer more generally, not just to sociology, but to all those disciplines which analyse society and culture; from ... Social science is a category of academic disciplines, concerned with society and the relationships among individuals within a society. Social science as a whole has many branches. These social sciences include, but are not limited to: anthropology, archaeology, communication studies, economics, history, human geography, jurisprudence, linguistics, political science, psychology, public health ... This quiz looks at some of the biological and physiological theories on criminology, from well in the past until more recently. Most information comes from "Deviance and Social Control", by Linda B. Deuschmann.
