The Pearson correlation coefficient is a very helpful statistical formula that measures the strength between variables and relationships. In the field of ...Biography. Pearson was born in Islington, London to William Pearson QC of the Inner Temple, and his wife Fanny (née Smith), and had two siblings, Arthur and Amy. Pearson was educated privately at University College School, after which he went to King's College, Cambridge in 1876 to study mathematics, graduating in 1879 as Third Wrangler in the Mathematical Tripos. Sociology (not to be confused with social neuroscience which studies the neuronal underpinnings of sociological phenomena) is the scientific study of society, patterns of social relationships, social interaction, and culture of everyday life. It is a social science that uses various methods of empirical investigation and critical analysis to develop a body of knowledge about social order ...
